12 FEB 1986

MEMORANDUM FOR: Director, Office of Information Technology
 FROM: Allen R. Elkins
 Director of Finance
 SUBJECT: Request for Additional Delta Data Terminals

D/OIT - Do whatever we can for OF. Even if it means stealing ExD. & exec net

1. As you are aware, excellent progress has been made on the first two deliverables of the Automated Compensation and Information System (ACIS) development effort. A portion of the software for the Automated Retirement and Separation System (ARESS) is already in place and the balance is now in the final testing stages. The Electronic Time and Attendance System (ELECTAS) is also in final testing and is scheduled for implementation in May 1986.

2. In reviewing the Compensation Division hardware requirements for these deliverables, it has been determined a minimum of two Delta Data terminals are required to support ARESS and four to support the initial implementation of ELECTAS. Of our current allocation of three new terminals for Compensation Division, a total of two have been designated for ARESS support with the remaining one scheduled for ELECTAS. This will still leave us three terminals short to meet the minimum requirements for ELECTAS implementation. ELECTAS will provide tangible benefits for and improve service to the entire Agency, and I am sure you agree that its successful implementation is mandatory. Your assistance is needed in providing three additional terminal installations in Key Building.

25X1

3. It is requested that you approve the allocation of three additional Delta Data terminals to the Office of Finance to support the ARESS and ELECTAS operations.

25X1
